

Grazings

by _____ deli-zabeth

No-nonsense, aesthetically stunning grazing boards for every event. Forget about stiff table settings - and enter a new era of catering.

Grazings

Nothing brings people together like good food. And then there is Grazing: an Australian phenomenon that's making its way into The Netherlands. Grazings start conversations at every gig. Not only does it romantically style your event - it tastes crazy good.

All Grazings are designed and selected by Deli-zabeth- a renowned Amsterdam based foodstylist and graduate of the Ballymaloe Cookery school. She will go out of her way to find the finest local ingredients, discover new trends and inspire you with freshness only. Add a bit of styling and no-nonsense to it - and Grazings was born.
